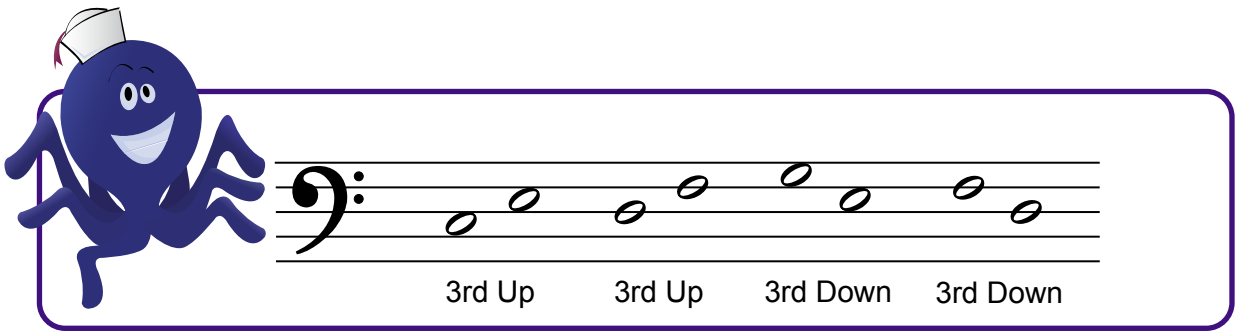
About This Activity

This activity worksheet is designed for the first year piano student. It continues to drill and practice note naming skills as it introduces the musical interval. This activity worksheet is most effective if used in sequence, following the introduction of basic symbols (staff, treble clef and bass clef) and note names.

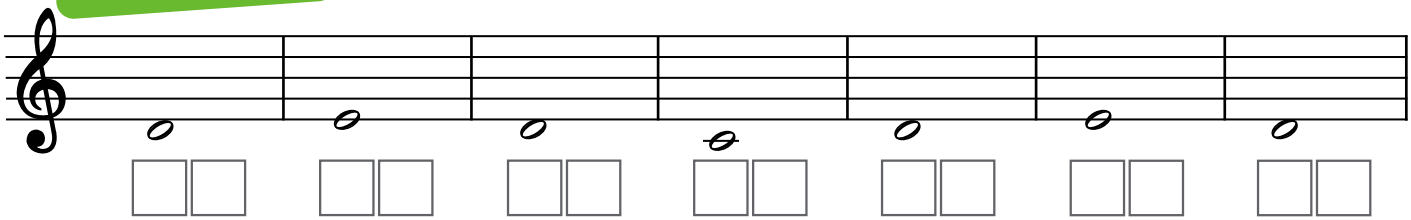
Intervals!

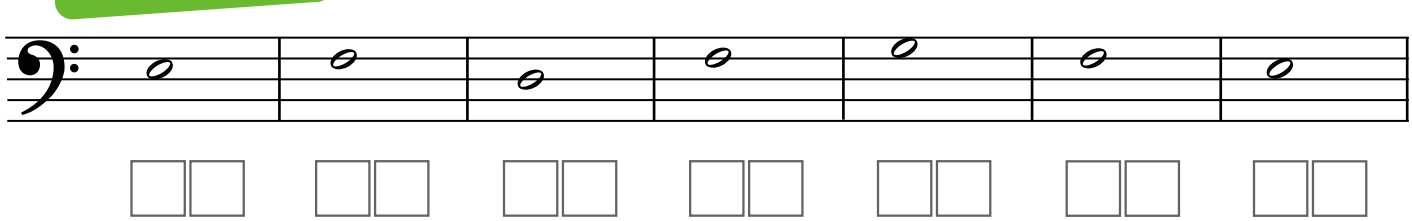
Now that you understand the basic stuff about intervals, and have successfully completed the first worksheet that introduced seconds (2nds), let's take a look at thirds (3rds). Thirds always move from a line note to a line note, or a space note to a space note.



In the following activity you will write thirds up and down from the printed note in the treble and bass clef. Then label the two notes with their correct alphabet letter.

3rds Up





3rds Down
